The tenderer whose tender is not accepted shall not be entitled to claim any costs, charges, damages and expenses of and incidental to or incurred by him through or in connection with his submission of tenders, even though the Bank may right to modify/withdraw the tender.

c. The Contractor shall note that unless otherwise stated, the tender is strictly on item rate basis and his attention is drawn to the fact that rates for each and every item should be correct, workable and self-supporting. The quantities in the Schedule of Quantities approximately indicate the total extent of work but may vary to any extent and may even be omitted thus altering the aggregate value of the contract. No claim shall be entertained on this account.

5(a). The tenderers are advised to submit the tender based strictly on the General Conditions of the Contract and scope of works as specified contained in the tender documents, and not to stipulate any deviations. If acceptance of the terms and conditions given in the tender documents has any price implications, the same should be considered and included in the quoted price. Tender containing deviations from the terms and conditions is liable to be rejected.

6. No advice whatsoever especially on any change in rate, specifications or conditions after opening of the tender will be entertained.

7(a). The rates shall also be firm and shall be valid for the entire duration of the contract and/or extension thereof and shall not be subject to exchange variations, labour conditions, fluctuations in railway freights or any conditions whatsoever.

7(b). The rates quoted in the tender shall include all charges including for packing, transport, loading, unloading and for delivery at site. Tenderers must include in their rates Good and Service Tax (GST), royalties and any other tax and duty or other levy levied by the Central Government or any State Government or local authority, if applicable as per latest notification/s of Govt. of India/State Govt./Statutory/local Authority.

New levies at actual in addition to statutory variation in taxes, duties, levies and cesses except income tax shall be reimbursed/adjusted as per applicability. For reimbursement of the amounts paid, Contractor shall produce documentary proof of enhancement of taxes (except income tax) and receipts of payments. Any reduction in any taxes, etc. shall be recovered from the dues to the contractor.

7(c). The rates quoted in the tender shall include all charges for clearing of site after completion, debris collections, erection of debris chutes if necessary, dismantling and taking away the debris (as soon as it becomes equivalent to one truck load or as & when directed by the Bank's Engineer) outside the compound (as per the rules and regulations of municipal authorities) from time to time as directed by Bank so as to keep the surrounding neat & clean complete centering, boxing, staging, planking, timbering, fencing, hoarding, plant and equipment, storage sheds, watching and lighting, by night as well as day including Sundays and Holidays, protection of the public and safety of adjacent roads, streets, pavements, walls, houses, buildings and all other erections, matters and things and the contractor shall take down and remove any or all such centering, scaffolding, staging, planking, timbering, strutting, shoring etc., as occasion shall require or when ordered so to do, and fully reinstate and make good all matters and things disturbed during the execution of work and to the satisfaction of the Bank.

7(d). Water required for the work or workmen can be availed from the available source at site **free of cost**. The contractor has to make his own arrangements to take the supply to the requisite position. However, in case of failure of water supply or water crisis due to which no water is available at site for any reason, then it must be noted that contractor has to make his own arrangement for procuring water at no extra cost to Bank so that work progress must not hamper.

7(e). Electric power required for the work can also be drawn from the supply available at site (at single point) **free of cost**. The contractor has to make his own arrangements to take the supply to the requisite position.

7(f). **Labourers will not be allowed to stay at site after working hours. The working hours will be 09.00 AM to 05.30 PM. For working on non-working days including holidays, Saturday and Sunday a necessary permission needs to be taken by the vendor to enter in the bank.**

7 (g). The contractor shall furnish a break-up of rate/cost/amount of any of the items or all the items, as may be sought for by the Bank, along with supporting documents etc. This, however, shall not be construed for any additional claim at any point of time.

8. The Earnest Money Deposit as mentioned in the memorandum at section- A of this tender by a Demand Draft or by NEFT or in the form of irrevocable Bank Guarantee in the enclosed prescribed format shall only be accepted by the Bank issued by a Schedule Bank in both the cases. The demand draft or Bank Guarantee shall be drawn in favour of Reserve Bank of India, Jaipur. The validity of the Bank Guarantee shall be for 6 **months** from the last date of receipt of tender which period may be further extended in case of extension of validity of tender with respect to

clause 13 hereof. Further, it shall be extended by the successful bidder up to the completion of the work.

- b) **Under no circumstances Earnest money deposit will be accepted in the form of fixed deposit receipt of Bank or Insurance Guarantee or Cheque etc.**

The EMD will be returned to the tenderer without Interest if his tender is not accepted by the Bank on award of work in favour of the successful tenderer.

9. The tenderers may obtain for themselves on their own responsibility and at their own expenses all the information which may be necessary for the purpose of making tender and for entering into a contract and may examine the drawings, inspect the site of the work, inspect and understand the all local conditions, means of access to the work, nature of the work and all matters pertaining thereto. The intending tenderer can obtain any clarifications regarding the tender, specifications, if any from the office of the Regional Director, Estate department, Reserve Bank of India, Jaipur on any Bank's working day between 11:00AM to 4:00 PM by contacting Shri Ashok Kumar Gupta, Manager (Tech-Civil), M- 9717108444.

10. Validity of Tender:

The Tender along with the prices shall remain valid initially for a period of **3 months** from the date of opening of tender, which period may be further extended by mutual agreement in writing by the Tenderer and the Tenderer shall not cancel or withdraw the tender during this period or change the quoted rates.

11. The Reserve Bank of India does not bind itself to accept the lowest or any tender and reserves to itself the right to accept or reject any or all the tenders either in whole or in part. The tenderer whose tender is not accepted shall not be entitled to claim any costs, charges, damages and expenses of and incidental to or incurred by him through or in connection with his submission of tenders, even though the Bank may right to modify/withdraw the tender.

12. The Contractor shall note that unless otherwise stated, the tender is strictly on item rate basis and his attention is drawn to the fact that rates for each and every item should be correct, workable and self-supporting. The quantities in the Schedule of Quantities approximately indicate the total extent of work but may vary to any extent and may even be omitted thus altering the aggregate value of the contract. No claim shall be entertained on this account.

SECTION D

General Terms and Conditions of the Contract

1. On receipt of intimation from the Employer regarding the acceptance of his/their tender, the successful tenderer shall be bound to sign the formal Contract agreement within fourteen days, in accordance with the draft agreement and the Schedule of Conditions. The written acceptance by the Reserve Bank of India of a tender will constitute a binding contract between the Reserve Bank of India and the Person so tendering, whether such formal agreement is or is not subsequently executed within the stipulated period of Fourteen days. Unless the contract agreement is signed, no payment shall be entertained by the Employer. **The agreement shall be executed in duplicate. One copy will remain in the custody of Employer and the second set of copy will remain in the custody of contractor. The agreement shall be made on necessary stamp paper (having worth equal to applicable stamp duty in the state of Rajasthan) and the cost of necessary stamp duty on both the document shall be borne solely by the contractor.**

2. The Contractor shall not assign or not sublet any portion of the contract except with the written consent of the Employer. In case of breach of these conditions, the Employer may serve a notice in writing on the Contractor rescinding the contract whereupon the security deposit shall stand forfeited to the Employer, without prejudice to his other remedies against the Contractor.

3. The Contractor shall carry out all the work strictly in accordance with drawings, details and instructions of the Bank's Engineer. If any changes required during the currency of the contract by deviating the tender requirements based on the opinion of the Bank's Engineer (with the prior approval in writing from the Employer), the Contractor shall carry out the same. The Bank's Engineer's decision in such cases shall be final.

4. A schedule of probable Quantities in respect of each work and Specifications accompany the Special Conditions. The Schedule of Probable Quantities is liable to alterations as per Bank's requirement. The Reserve Bank of India also reserves the right to increase or decrease the quantities and even omit any item of work after the order is placed and the Contractor shall execute the same without claiming anything extra for the same. In this context, the rates quoted for each item must be self-supporting and relevant.

5(a). Security for the due fulfillment of the contract under clause 7 of General Instructions to Tenderers, 5% of the total value of work done will be withheld from their each running A/c bill by the Bank as Retention Money (RM). On the request of the contractor, the amount of retention money deducted from each bill may be released against Bank Guarantee valid till the completion of 'Defect Liability Period' for equivalent amount after the virtual completion of the work till the completion of defect liability period. The EMD shall be released without any interest to the contractor on completion of the work after issue of virtual completion certificate and the R.M. amount shall be released after successful completion of 12 months of Defect Liability

Period from the date of completion certificate provided all the defects pointed out are rectified. The security deposit of the successful tenderer and R.M. will be forfeited if he/they fails to comply with any of the conditions of contract. No interest will be paid on Security Deposit and Retention Money withheld by the Bank.

5(b) The successful tenderer, within a period of **14 days** from the date of award of work by the Bank, shall submit a **Performance (Bank) Guarantee** (to be arranged by the contractor at his own cost) obtained from any of the nationalized / scheduled bank, in the format approved by the Bank for an amount equivalent to 5% of the contract value. This is to ensure adherence to complete the work and execution:

- (i) Of abnormally low rated items up to the full tender quantity.
- (ii) Strictly as per the specifications and instructions.
- (iii) With usage of only approved materials and getting the materials tested as per tender provisions.
- (iv) With best quality workmanship.

The above-noted **Performance Bank Guarantee** shall be valid up to the satisfactory completion of the work in all respects and shall have to be renewed by the contractor up to extended completion time, if any. In case, the contractor fails to comply with any of the above conditions, the Bank will be at liberty to invoke the Guarantee based on the certificate issued by the Bank's Engineer. The Guarantee shall be released after issue of virtual completion certificate.

6. All compensation or other sums of money payable by the contractor to the Employer under the terms of this contract may be deducted from his security deposit if the amount so permits and the contractor shall, unless such deposit has become otherwise payable, within ten days after such deduction make good in cash the amount so deducted.

7. All the statutory deductions at source will be deducted as per the norms of Govt. /statutory authorities. Successful tenderers shall get registration under relevant Govt. body/authority/agency prior to award of the work.

8. The Contractor should note that unless otherwise stated, the tender is strictly on item rates basis and his attention is drawn to the fact that rates for each and every item should be correct, workable and self-supporting. The quantities in the Schedule of Quantities approximately indicate the total extent of work, but may vary to any extent and may even be omitted thus altering the aggregate value of the Contract. However, during actual execution of work if the quantities of any of the items of work exceeds by more than 25% of the tender quantities, the quantities of such items executed with the concurrence of the employer, in excess of 25% of the tender quantity shall be considered as an extra item of work for which the Contractors shall submit fresh rates supported by rate analysis worked on the actual cost basis plus 15% towards establishment charges, contractor's overhead and profit. If any of the items of work is omitted from the accepted tender at the sole discretion of the employer, the contractor shall not be entitled to any claim on this account. The Contractor may, when authorized, and shall, when directed, in writing by the

Employer add to, omit from or vary the works shown upon the drawings or described in the specification, or included in the Schedule of Quantities, but the Contractor shall make no addition, omission or variation without such authorization or direction.

No claim for an extra shall be allowed unless it shall have been executed under provisions hereof or with the concurrence of the Employer as herein mentioned. Any such extra is herein referred to as authorized extra and shall be made in accordance with the following provisions.

- (a) (i) The net rates or prices in the original tender shall determine the valuation of the extra work where such extra work is of similar character and executed under similar conditions as the work priced therein.
- (ii) Rates for all items, wherever possible, should be derived out of the rates given in the Priced Bill of Quantities.

(b) The net prices of the original tender shall determine the value of the items omitted provided if omissions vary the conditions under which any remaining items of works are carried out the prices for the same shall be valued under sub-clause (c) thereof.

(c) Where the extra works are not of similar character and/or executed under similar conditions as aforesaid or where the omissions vary the conditions under which any remaining items of works are carried out or if the amount of any omissions or additions relative to the amount of the whole of the contract works or to any part thereof shall be such that in the opinion of the engineer the net rate or price contained in the Priced Schedule of Quantities or tender or for any item of the works involves loss or expense beyond that reasonably contemplated by the Contractor or is by reason of such omission or addition rendered unreasonable or inapplicable, the Engineer shall fix such other rate or price as in the circumstances he shall think reasonable and proper, with the prior approval in writing of the Employer.

(d) Where extra work cannot be properly measured or valued the Contractor shall be allowed day work prices as the net rates stated in the tender of the Priced Schedule of Quantities or, if not so stated, then in accordance with the local day work rates and wages for the district, provided that in either case vouchers specifying the daily time (and if required, the workman's name) and materials employed be delivered for verification to the Employer or his representative at or before the end of the week following that in which the work has been executed.

(e) It is further clarified that for all such authorized extra items where rates cannot be derived from tender, the Contractors shall submit rates supported by rate analysis worked on the "actual cost basis" plus 15% towards establishment charges, contractor's overhead and profit. Such items will not be eligible for escalation.

(f) The measurement and valuation in respect of the Contract shall be completed within the "Period of Final Measurement" stated in the Appendix.

9. The successful tenderer should make his own arrangement to obtain all the building materials required for the work.

10(a). Wherever the basic rate for the material is specified, the contractor should furnish to the Bank for verifications all the original paid bills. The purchase rate shall be got approved from the Bank's Engineers before purchasing such materials. No overhead and profit shall be considered on the cost difference.

10(b). The basic rates are inclusive of all prevalent taxes on material including GST, etc. levied by Government or any public body. The rate quoted shall include cost of transportation to the site, storing, handling, wastage etc. and nothing extra on these accounts will be considered and paid in basic rates. The agencies are to submit tax paid invoices for 100% quantity in support of their claim of basic rate as specified in Part-II of the tender and taxes etc. Quantities indicated in the Bills or measured whichever is minimum shall only be considered for price adjustment. In absence of invoices, no payment shall be made for positive difference in basic cost, Negative variations shall be recovered based on the approved rates/market rates.

11. The tenderer shall have to use materials of the makes/manufacturers specified in the list of material of approved brand and/or manufacture contained in this tender form.

12. Time allowed for carrying out the work is as per the memorandum at Section-A of this tender which shall be strictly observed by the tenderer. The work shall throughout the stipulated period of the contract be proceeded with all due diligence and if the Contractor fails to complete the work within the specified period, he/they shall be liable to pay liquidated damages at the rate of 0.25 % per week of estimated tender amount subject to a maximum amount of 10% of the tendered amount.

The Liquidated damages will be levied in following manner:

"If the Contractor fails to maintain the required progress of the works by the completion time stipulated in the Contract or within any extended time under time extension Clause and the employer certifies in writing that in his opinion the same ought reasonably to have been completed, the Contractor shall pay the Employer the sum named as "Liquidated Damages" for the period during which the said works shall so remain incomplete and the Employer may deduct such damages from any moneys due to the Contractor.

13. The Contractor shall not be entitled to any compensation for any loss suffered by him on account of delays in commencing or executing the work, whatever the cause of delays may be, including delays arising out of modifications to the work entrusted to him or in any sub-contract connected therewith or delays in awarding contracts for other trades of the project or in commencement or completion of such works or in procuring Government controlled or other building materials or in obtaining water and power connections for construction purposes or for any other reason whatsoever and the Employer shall not be liable for any claim in respect thereof. The Employer does not accept liability for any sum besides the tender amount, subject to such variations as are provided for herein.

14. The successful tenderer is bound to carry out any or all items of work necessary for the completion of the job even though such items are not included in the quantities and rates. Schedule of Instructions in respect of such additional items and their quantities will be issued in writing by the Bank's Engineer.

15. The successful tenderer must co-operate with other contractor/(s) appointed by the Employer so that the work shall proceed smoothly without any delay and to the satisfaction of the Engineer.

16. DEFECT LIABILITY PERIOD:

Any defect or fault which may appear during **12 months** from the date of completion of work/or supply and installation in full as specified under the contract, arising in the opinion of the Bank's Engineer from materials or workmanship not in accordance with the contract, shall upon the directions in writing of the Bank's Engineer, and within such reasonable time as shall be specified therein, be amended and made good by the Contractor at his own cost and in case of default the Bank may employ and pay other persons to amend and make good such defects/faults and damages, loss and expenses consequent there upon or incidental thereto shall be made good and borne by the contractor and such damages, loss and expenses shall be recoverable from him by the Bank, or may be deducted by the Bank upon the Bank's Engineers' certificate in writing from any moneys due or that may become due to the contractor. The contractor shall remain liable under the provisions of this clause notwithstanding the signing by the Bank's Engineer any certificate or passing of any accounts.

17. DELIVERY SCHEDULE: The entire work is to be completed within a period as mentioned in the memorandum at Section-A of this tender. The Contractors are advised to visit the site and get themselves fully acquainted with the general and local site conditions, particularly, those having bearing upon transportation, handling, storage etc. prior to quoting the tender. The material required for the work will have to be delivered, placed and fixed in position at RBI Office, Rambagh circle Jaipur site of the Bank.

18. TERMS OF PAYMENT: Payment shall be made based on completed items of work the minimum value of an RA bill shall be as per the memorandum at Section-A of this tender. On request of contractor, Bank at its discretion may release the 75% of the amount payable to the Contractor on the RA bills as ad-hoc payment within 7 working days from the date of certification by the Bank's Site Engineer, pending test checking of work and measurement checking, detailed arithmetical accuracy check and certification by competent technical officer of the Bank. 5% Retention money shall be deducted from each payment including ad-hoc payment.

19. Insurance: The contractor shall, at his own expense, effect and maintain till issue of the virtual completion certificate under this contract, with an insurance company approved by the employer the insurance policies as described in clause 24 under "Conditions Hereinbefore Referred To".

20. Errors, Omission and Descriptions:

- (a) In case of errors, omissions and/or disagreement between written and scaled dimensions on the drawings or between the drawings and specification etc. the following order of preferences shall apply.
- (i) Between the written or shown description or dimensions in the drawings and the corresponding one in the specification the later shall be taken as correct.
- (ii) Between the written description of the item in the specifications and the detailed descriptions in the schedule of quantities of the same item, the later shall be adopted.
- (b) Between the duplicate copies of the tender and original tender, the original shall be taken as correct.
- (c) In all cases of omissions and/or doubts or discrepancies in any item or specification a reference shall be made to the Employer whose elucidation, elaboration or decision shall be considered as authentic. The Contractor shall be held responsible for any errors that may occur in the work through lack of such reference and precaution.
21. Should any treasure, fossils, minerals or works of art of antediluvian interest be found during excavation or while carrying out the works, the contractor shall give immediate notice of any such discovery and shall make over such finds to the Employer. Contractor shall hand over the same to RBI and that contractor shall not claim any right title interest for the same.
22. All disputes and differences of any kind whatever arising out of or in connection with the contract or the carrying out of the works shall be settled as described under clause 34 of "Conditions Hereinbefore Referred To".
23. Contract Labour License: Necessary contract license for deploying contract labour (as per prevailing contract labour Act 1970) shall be obtained from the central labour authorities.
24. All safety measures as per the safety code of tender shall be strictly adhered.

4. All the materials shall be tested in the reputed recognized NABL accredited testing laboratory approved by the Engineer, as per the testing schedule approved by the Engineer. Results of such tests in original issued by the laboratory shall be submitted to the Engineer. The entire charges connected with such testing including for repeated tests if ordered by the Employer shall be borne by the Contractor.
5. It shall be obligatory for the Contractor to furnish certificate, if demanded by the Engineer, from manufacturer or the material supplier that the work has been carried out by using their materials and as per their recommendations.
6. All materials supplied by the Employer/ any other specialist firm shall be properly stored and the Contractor shall be responsible for its safe custody until they are required on the works and till the completion of work.
7. Unless otherwise shown on the drawings or mentioned in the Schedule of Quantities or Special Conditions, the quality of materials, workmanship dimensions etc. shall be as specified herein under.
8. All equipment and facilities for carrying out field test on materials shall be provided by the Contractors without any extra cost.

Section (B) – Material:

(a) Cement

Cement shall comply in every respect with the requirements of the latest publication of IS and unless otherwise specified, Ordinary Portland Cement conforming to IS 269, 8112 or 12269 shall be used as directed.

The weight of ordinary Portland cement shall be taken as 1440 kg per cum (90 lbs per cft). Cement shall be measured by weight and in whole bags, and each undisturbed and sealed 50 kg bag being considered equivalent to 34.72 litres (1.2 cft) in volume. Care should be taken to see that each bag contains full quantity of cement. When part bag is required, cement shall be taken by weight or measured in measuring boxes.

No other make of cement but that approved by the Bank will be allowed on works and the source of supply shall not be changed without approval of the Employer in writing. Test certificates to show that cement is fully complying with the specifications shall be submitted to the Bank and notwithstanding this, the Bank may at their discretion, order that the cement brought on site and which they may consider damaged or of doubtful quality for any reason whatsoever, shall be retested in an approved testing laboratory and fresh certificates of its soundness shall be produced. Cement ordered for retesting shall not be used for any work pending results of retests.

Cement shall be stored in weatherproof shed with raised wooden plank, flooring to prevent deterioration by dampness or intrusion of foreign matter. It shall be stored in such a way as to allow the removal and use of cement in chronological order of receipt i.e. first received being first used. Cement deteriorated and/or clotted shall not be used on work but shall be removed at once from the site. However, allowing use of warehouse set cement shall be determined by the Employer.

Daily record of cement received and consumed shall be maintained by the Contractor in an approved form and submitted to the Engineer.

(b) Fine Aggregate

Sand shall conform to IS 383 and relevant portion of IS 515. It shall pass through a IS sieve 4.75 mm (3/16 BS) test sieve leaving a residue not more than 5%. It shall be from natural source crushed stone screenings, if allowed, chemically inert, clean, sharp, hard, durable, well graded and free from dust, clay, shale large pebbles, salt, organic matter, loam mica or other deleterious matter. The sum of percentages of all deleterious materials in sand shall not exceed 5% by weight. It shall be washed if directed to reduce the percentage of deleterious substance to acceptable limits. Sand shall not contain any trace of salt and it shall be tested and sand containing any trace of salt shall be rejected.

The fine aggregate for concrete shall be graded within limits as specified in IS 383 and the Fineness Modulus may range between 2.60 to 3.20.

The fine aggregate shall be stacked carefully on a clean hard dry surface so that it will not get mixed up with deleterious foreign materials, if such a surface is not available a platform of planks of corrugated iron sheets or brick floor or a thin layer of lean concrete shall be prepared.

(c) Water

Water for mixing cement mortar or concrete shall not be salty or brackish and shall be clean, reasonably clear and free from objectionable quantities of silt and traces of oil, acid and injurious alkali, salts, organic matter and other deleterious materials which will either weaken the mortar or concrete or cause efflorescence or attack the steel in reinforced cement concrete. Water shall be obtained from sources approved by the Engineer. Potable water is generally considered satisfactory for mixing and curing concrete, mortar, masonry etc. Where water other than main source is used this shall be tested in an approved testing laboratory to establish its suitability. All charges connected therewith shall be borne by the Contractors.

(d) Paints

Oil bound distemper, cement primer, oil paint, enamel paint, flay oil paint, plastic paint, anti-corrosive primer, red lead, waterproof cement paint shall be from an approved manufacturer and shall confirm to the latest Indian Standards for various paints. Ready mixed paints as received from the manufacturer without any admixture shall be used, except for addition of thinner, if recommended by the manufacturer.

Section (C) Mode of Measurement:

The method of measurement for various items in the tender shall be generally in accordance with the IS: 1200 unless otherwise specifically stipulated in this tender document.

Section (D) Workmanship:

Plastering

Scaffolding:

Scaffolding for carrying over plastering work shall be rigid & secured double scaffolding (steel) arrangement having two sets of vertical supports so that scaffolding is independent of the walls.

Preparation of surface

After carefully removing the existing external plaster, all putlog holes in brickwork and junction between concrete and brickwork shall be properly filled in advance. Joints in brickwork shall be racked about 10 mm and concrete surface hacked to provide the grip to the plaster. Projecting burns of mortar formed due to gaps at joints in shuttering shall be removed.

Dust and loose mortar shall be brushed out. Efflorescence if any shall be removed by brushing and scrapping. The surface shall then be thoroughly washed with water, cleaned and kept wet before plastering is commenced. In case of concrete surface if a chemical retarder has been applied to the form work, the surface shall be roughened by wire brushing and all the resulting dust and loose particles cleaned off and care shall be taken that none of the retarders is left on the surface.

Ceiling plaster shall be completed before commencement of wall plaster. Plastering shall be started from the top and worked down towards the floor. Plaster about 15 × 15 cm shall be first applied, horizontally and vertically, at not more than 2 metres intervals over the entire surface to serve as gauges. The surfaces of these gauged areas shall be truly in the plane of the finished plaster surface. The mortar shall then be laid on the wall, between the gauges with trowel. The mortar shall be applied in a uniform surface slightly more than the specified thickness. This shall be brought to a true surface, by working a wooden straight edge reaching across the gauges, with small upward and sideways movements at a time. Finally the surface shall be finished off true with trowel or wooden float according as a smooth or a sandy granular texture is required. Excessive trowelling or over working the float shall be avoided. All corners, arises, angles and junctions shall be truly vertical or horizontal as the case may be and shall be carefully finished. Rounding or chamfering corners, arises, provision of grooves at junctions etc. where required shall be done without any extra payment. Such rounding, chamfering or grooving shall be carried out with proper templates or battens to the sizes required. When suspending work at the end of the

day without leaving scope for a joint as far as possible. Where the same is unavoidable, the plaster shall be left, cut clean to line both horizontally and vertically. When recommencing the plastering, the edge of the old work shall be scrapped cleaned and wetted with cement slurry before plaster is applied to the adjacent areas, to enable the two to properly join together. Plastering work shall be closed at the end of the day on the body of wall and not nearer than 15 cm to any corners or arises. It shall not be closed on the body of the features such as plasters, bands and cornices, nor at the corners of arises. Horizontal joints in plaster work shall not also occur on parapet tops and copings as these invariably lead to leakages. The plastering and finishing shall be completed within half an hour of adding water to the dry mortar. No portion of the surface shall be left out initially to be patched up later on. The plastering and finishing shall be completed within half an hour of adding water to the dry mortar.

Curing shall be started as soon as the plaster has hardened sufficiently not to be damaged when watered. The plaster shall be kept wet for a period of at least 7 days. During this period, it shall be suitably protected from all damages at the contractor's expense by such means as the Engineer-in-Charge may approve. The dates on which the plastering is done shall be legibly marked on the various sections plastered so that curing for the specified period thereafter can be watched.

The plaster shall be finished to a true and plumb surface and to the proper degree of smoothness as required. The work shall be tested frequently as the work proceeds with a true straight edge not less than 2.5 m long and with plumb bobs. All horizontal lines and surfaces shall be tested with a level and all jambs and corners with a plumb bob as the work proceeds.

Any cracks which appear in the surface and all portions which sound hollow when tapped, or are found to be soft or otherwise defective, shall be cut out in rectangular shape and redone as directed by the Engineer.

(i) When ceiling plaster is done, it shall be finished to chamfered edge at an angle at its junction with a suitable tool when plaster is being done. Similarly, when the wall plaster is being done, it shall be kept separate from the ceiling plaster by a thin straight groove not deeper than 6 mm drawn with any suitable method with the wall while the plaster is green.

(ii) To prevent surface cracks appearing between junctions of column/beam and walls, 200 mm wide GI chicken wire mesh should be fixed with U nails 200 mm centre to centre before plastering the junction. The plastering of walls and beam/column in one vertical plane should be carried out in one go. For providing and fixing chicken wire mesh with U nails payment shall be made separately.

Painting & Pointing

Patch repair, surface preparation, application of primer and painting etc. all complete as per the Manufacturers' specification in conformity with the relevant BIS codes as directed by the Engineer.

1. Step-by-Step Application Process

Prepare the Joints: Use a small chisel or hand tool to scrape out the old, weak mortar to a depth of at least 15 mm to 20 mm.

Clean the Wall: Use a wire brush or high-pressure water jet to remove all dust, dirt, and loose bits. Let the wall dry slightly.

Dampen the Wall: Lightly spray the joints with water. This keeps the stones from sucking water out of your new mortar too quickly, which makes the mortar weak.

Apply the Mortar: Push the mortar firmly into the joints using a small trowel or a specialized pointing gun.

Finish and Shape: Pack the mortar tightly. Shape it into a slight slope or concave shape so water runs off the joint instead of pooling on it.

Waterproofing Additives: Always mix a liquid waterproofing compound (like an acrylic-based polymer) directly into the water used to make your mortar. This drastically reduces water absorption.

Slow Drying: Keep the newly pointed wall moist for at least 3 to 5 days.
